The undersigned warrants StoneScapes™, aggregate interior pool and spa finish material (aggregate only) ("Finish") against failure for lifetime from the date of installation pursuant to the terms below. This is a formulated surface system and is limited warranty will only be in effect if the batch formulas are followed precisely as directed and installed by a certified applicator. The base pebble and dye pack and/or dye pigments must be purchased from SCP Distributors LLC or Superior Pool Products LLC.

No Other Warranties: TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, SCP DISTRIBUTORS LLC AND ITS PARENT, SUBSIDIARIES AND AFFILIATES ("SCP") HEREBY DISCLAIM ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OR MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT AND REDHIBITION.

Warranties or Representations by Others: No distributor, dealer or any other third party entity has authority to make any warranties or representations concerning the Finish. Accordingly, SCP is not responsible for any such warranties or representations.

Other Rights: This warranty gives you specific legal rights and you may also have other rights, which vary from state to state. This warranty supersedes all previous publications.

LIMITATIONS:

The Finish is covered by this lifetime limited warranty only when installed by a Certified StoneScapes Pool Finish Applicator.

- 1. This limited warranty shall not cover damages to the Finish which have been physically damaged or faded, through lack of proper water chemistry balancing or other chemical abuse, or sanitation applications. The pool water must be tested and documented monthly by a reputable company using a computer system. Monthly printed reports are required as documentation to initiate a warranty claim and failure to obtain monthly water chemistry records shall void this warranty. SEE PAGE 2 FOR OPTIMUM POOL AND SPA WATER CHEMISTRY AND CONDITIONS AND ADDITIONAL WARRANTY CONDITIONS. In addition, this limited warranty shall not apply to damage due to structural failure, or physical abuse to the pool.
2. Some loss of stone is expected especially in a new application; this is not to be considered a failure and/or defect. During the curing process, lightly brush the finish daily to help keep the surface clean.
3. This warranty shall not cover StoneScapes pool finish material to be installed outside of a body of water, including but not limited to negative edges, dam walls, beach entries, rolled bond beams, spillways and waterfalls.
4. Stone and application techniques will result in unique variations that are part of this handcrafted process. The colors and highlights of the StoneScapes pool finish material will alter with the reflection of the sun. Such variations shall not be considered to be a defect and/or failure.
5. SCP warrants the StoneScapes materials only. SCP is not responsible for the cost of replacement and/or repair. If the material is defective, SCP will provide the replacement material for only the area of failure. Color will match the existing shade as close as possible, some cosmetic and color variations may result. Some pool finishes may include seashells. SCP cannot guarantee the lasting integrity of the shell material against degradation and loss of color.
6. The Pool Contractor will have twenty (20) business days after written request of a claim to inspect the application site.
7. Warranty is not valid until the Pool Contractor has been paid in full.
8. SCP shall not be liable for any incidental, special, consequential or punitive damages, including without limitations, water and chemical replacement, replacement and/or repair labor, and loss of use of the pool. In addition, minor surface checking, "crazing", and/or cracks are not covered by this warranty. This finish is not structural.
9. This limited warranty is only valid to the original pool owner listed above and is non-transferable. This limited warranty is not valid unless this document is completed in full, signed and returned to SCP within thirty (30) days of application of the StoneScapes pool finish material. WARRANTY REGISTRATION MUST BE SENT BY CERTIFIED MAIL, RETURN RECEIPT (WHICH MUST BE RETAINED BY POOL OWNER) to SCP Warranty Dept. 109 Northpark Boulevard Suite 130 Covington, La. 70433
10. Any and all controversies, claims or disputes under this warranty shall be settled by binding arbitration.

OPTIMUM POOL and SPA WATER CHEMISTRY CONDITIONS

In accordance with the National Plasterers Council, Inc. (“NPC”) standards, it is recommended that the following pool and spa water chemistry conditions be maintained on an on going basis for the longevity of StoneScapes™ aggregate interior pool and spa finish (“StoneScapes Finish”). These values are important to prevent corrosion, deterioration, discoloration, liming or other problems. For more information, refer to your local agency having jurisdiction or NPC.

DAILY WATER CHEMISTRY AFTER 28 DAYS

Maintain the water chemistry using the **Langelier Saturation Index (LSI) maintained between 0.0 and + 0.3.**

Description	Pool and Spa Water Levels
Free Chlorine- Above 4.0 ppm may cause corrosion	1 to 3 ppm
Total Chlorine	1 to 3 ppm
pH	7.2 to 7.6
Alkalinity	80 to 120 ppm
Calcium Hardness	200 to 400 ppm
Cyanuric Acid	50 to 80 ppm
TDS	300 to 1800 ppm (Non- Salt Pools)
Salt Level	2500 to 3500 ppm (Salt Chlorination ONLY)

New Pool and Spa Water: The initial fill water is the most important water that the pool will receive and must be tested, recorded and adjusted according to above parameters by an experienced pool professional. For the first thirty days (30) the pH and alkalinity must be monitored and adjusted (if applicable) every three (3) to five (5) days. All other chemicals monitored and adjusted (if applicable) every seven (7) to ten (10) days. The pool water must be tested and documented monthly by a reputable company using a computer system. Monitoring the pool water regularly will not only affect the new StoneScapes finish but will keep the StoneScapes finish looking new. Improper water chemistry will void the lifetime limited warranty.

Although not required, it is recommended that a quality sequestering agent be used in the initial start- up in accordance with the manufacturer’s instructions and then a recommended maintenance dosage per the sequestering agent’s manufacturer.

LIMITED WARRANTY CLAIM PROCEDURES

To initiate a limited warranty claim, notify SCP with a brief note describing the complaint and photocopies (do NOT send originals) of the warranty as completed at the time of application of the StoneScapes finish, copies of monthly (or more frequent) results of water chemistry records analyzed by a commercial water chemical retailer and send by certified mail to:
